RESPONSE TO NOTICE OF DRAWING INCONSISTENCY WITH SPECIFICATION

This paper is submitted in response to the Notice of Drawing Inconsistency with Specification mailed September 23, 2005. The Applicants received the attached notice which states that there is a figure contained in the application which is not listed in the Brief Description of the Drawings and that the applicants are required to correct the inconsistency.

The Applicants have reviewed the file history in the USPTO's PAIR system and have found that there is a drawing in the file history. The undersigned has reviewed the Applicant's own file and there is no drawing attached to the Applicants' copy the filed application. Furthermore, no such drawing exists anywhere in the Applicants' file. The Utility Application Transmittal does not refer to any drawing being submitted with the application. The Applicants do

not know why the drawing is attached to the USPTO's file but there was and is no intention that this drawing be part of this application. The drawing does not describe anything which is related to or part of the claimed invention.

The undersigned spoke with Toni Hood of the USPTO Office of Patent Publication/Publishing Division on October 18, 2005. This paper, including the request below, was submitted in accordance with Toni Hood's suggestion.

The Applicants hereby request that the drawing be deleted from the application and not be included in the published patent. The Applicants believe that this is a complete response to the notice. If additional discussion is required, please call the undersigned at the number set out below.

Respectfully submitted,

EIT DRENT and
RENADA H. VAN DER MADE
